DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

1. The rejection of claims 1-41 under 35 U.S.C. 102(b) as being anticipated by US Patent No. 5,624,486 to Schmid et al. as generally set forth in the first Office Action mailed on April 16, 2007 stands.

Response to Amendment

2. Applicants' amendment to claim 41 by changing the dependency of said claim to claim 39, filed July 16, 2007 is acknowledged. As such the rejection of claim 41 under 35 U.S.C. 112 – 2nd paragraph set forth in the first Office Action is withdrawn.

Response to Arguments

3. Applicant's arguments, see page 10, filed July 16, 2007, with respect to multiple dependency of claims 4, and 8-40 have been fully considered and are persuasive. The objection of said claims has been withdrawn.
4. Applicant's arguments filed July 16, 2007 have been fully considered but they are not persuasive.

Art Unit: 1755

5. Applicants have argued that the process disclosed by Schmid et al. does not disclose oxidation of aluminum core.

The examiner respectfully submits that it is a known fact that aluminum has anti-corrosive property and while in atmosphere or in a solution containing oxidizing agent such as the instant application, the outer layer oxidizes to form a protective layer. Therefore, although Schmid et al. may not expressly disclose the oxidation step of aluminum, it would have been obvious that under the set conditions, the aluminum forms an oxidized protective layer.

6. Applicants have argued that has a severely roughened surface structure.

The examiner respectfully submits that the roughened surface structure, which appears to be an inherent property, is not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 1755

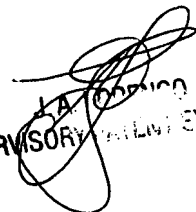

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
